

Circle of Parents Statewide Networking

We have received several requests for the opportunity to network with other Circle of Parents contacts across the state. Starting in 2023, we will be offering quarterly networking spaces over Zoom to anyone involved in the MN Circle of Parents program.

Please join us to connect with other Circle of Parents facilitators, children's group contacts and volunteers to engage in discussions, share best practice ideas, co-learning, troubleshoot problem areas, training needs and opportunities, marketing, referral sources, and shared resources.

January 17, April 18, July 18, October 17, 2023 (9:00 to 10:30am)

Register for Quarterly Networking:

CIRCLE of PARENTS
Sharing Ideas. Sharing Support.

FamilyWise

The Minnesota Circle of Parents model is a peer-led, mutual self-help, support group program. At group sessions parents can safely discuss the challenge and success involved in raising children with other parents and caregivers. Implementing a Circle of Parents support group increases parent partnership and shared leadership throughout the community. Support groups also help create and strengthen prevention initiatives and other local family programs and services.
