

# A GUIDE TO SLACK

Click this link:  
<https://bit.ly/FWSslack>

Enter work email and full name

Slack will then ask for a code which was sent to your work email. Enter this code to access our workspace

Please note: if this doesn't work, try using a different web browser. Google Chrome seems to work well

You will then be automatically added to 3 channels: #near-science-resources, #slack-help, and #village-news-and-open-forum. Send a Direct Message or create a post and tag @NEAR to let us know you accessed the workspace. We will then add you to the #collaborative-coordinators channel.
